LED Highbay FOR INDUSTRIAL FACILITIES

ACANEO

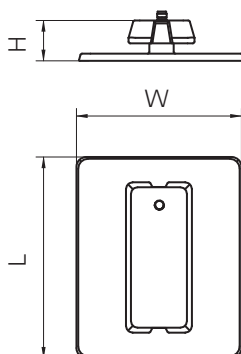

LED HIGHBAY FOR INDUSTRIAL FACILITIES

ACANEO is the newly designed modular mounting system for lighting of large industrial areas with very high ceilings. Quick, uncomplicated installation and state-of-the-art LED technology offer 60,000 hours of LED operation, resulting in significant savings in both energy efficiency and maintenance costs.

- Sealed IP65, closed design protects from oils, coolants and other vapors common in industrial environments
- Advanced LED technology with up to 60,000 hours of maintenance-free LED operation (L80B10)
- Three sizes offering 14,000, 20,000 and 30,000 lumens
- Modular mounting system quick and easy to install
- Available in narrow or wide light distribution versions
- Extremely robust die-cast aluminum housing
- 4000K or 5000K color temperature
- Lenses ensure precise light deflection UGR<20
- Various mounting options available for customization
- Dynamic thermal management system protects fixture and surrounding area from overheating
- 5 year warranty
- ETL/cETL approved
