LIGHT FOR BETTER RESULTS

TRIANGO 100/130

OPTIMAL LIGHT FOR PROCEDURES AND EXAMINATIONS

TRIANGO 130 NOW AVAILABLE.

A MINOR PROCEDURE LIGHT THAT MEETS YOUR REQUIREMENTS.

TRIANGO 130 is now available. The same great performance as TRIANGO 100 — now 30% brighter

The modular design of TRIANGO 100 / 130 minor procedure light meets all of your requirements.

Experience Swiss Engineering: Wrapped in a surgery light in which long-standing experience in light technology and ergonomics merge.

TRIANGO 100 / 130 provides optimum light conditions making it ideal for any medical practitioner. At an illuminance of 100,000 / 130,000 lux at 1.0 m, it enables precise interventions and accurate diagnoses - for the patient's benefit.

CUSTOMIZED VERSIONS

The modular design of TRIANGO 100 / 130 allows the user to select a version with features that meet the needs of their specific application.

UNIQUE UNOBTRUSIVE DESIGN

The contoured light head allows medical practitioners to position the light as close as possible to the patient.

SHADOWS ELIMINATED

Handling lighting during an examination often results in shadowing. That is not the case thanks to the uniform illumination of TRIANGO 100 / 130.

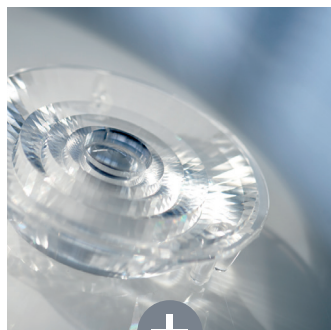

MINIMAL MAINTENANCE REQUIRED

The sealed housing keeps particles and liquids from permeating the light, making it ideal for facilities.

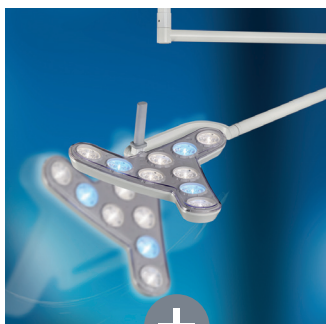

Diamond cluster optics

For uniform light with 100,000 / 130,000 lux @ 1 meter

Unique arm system

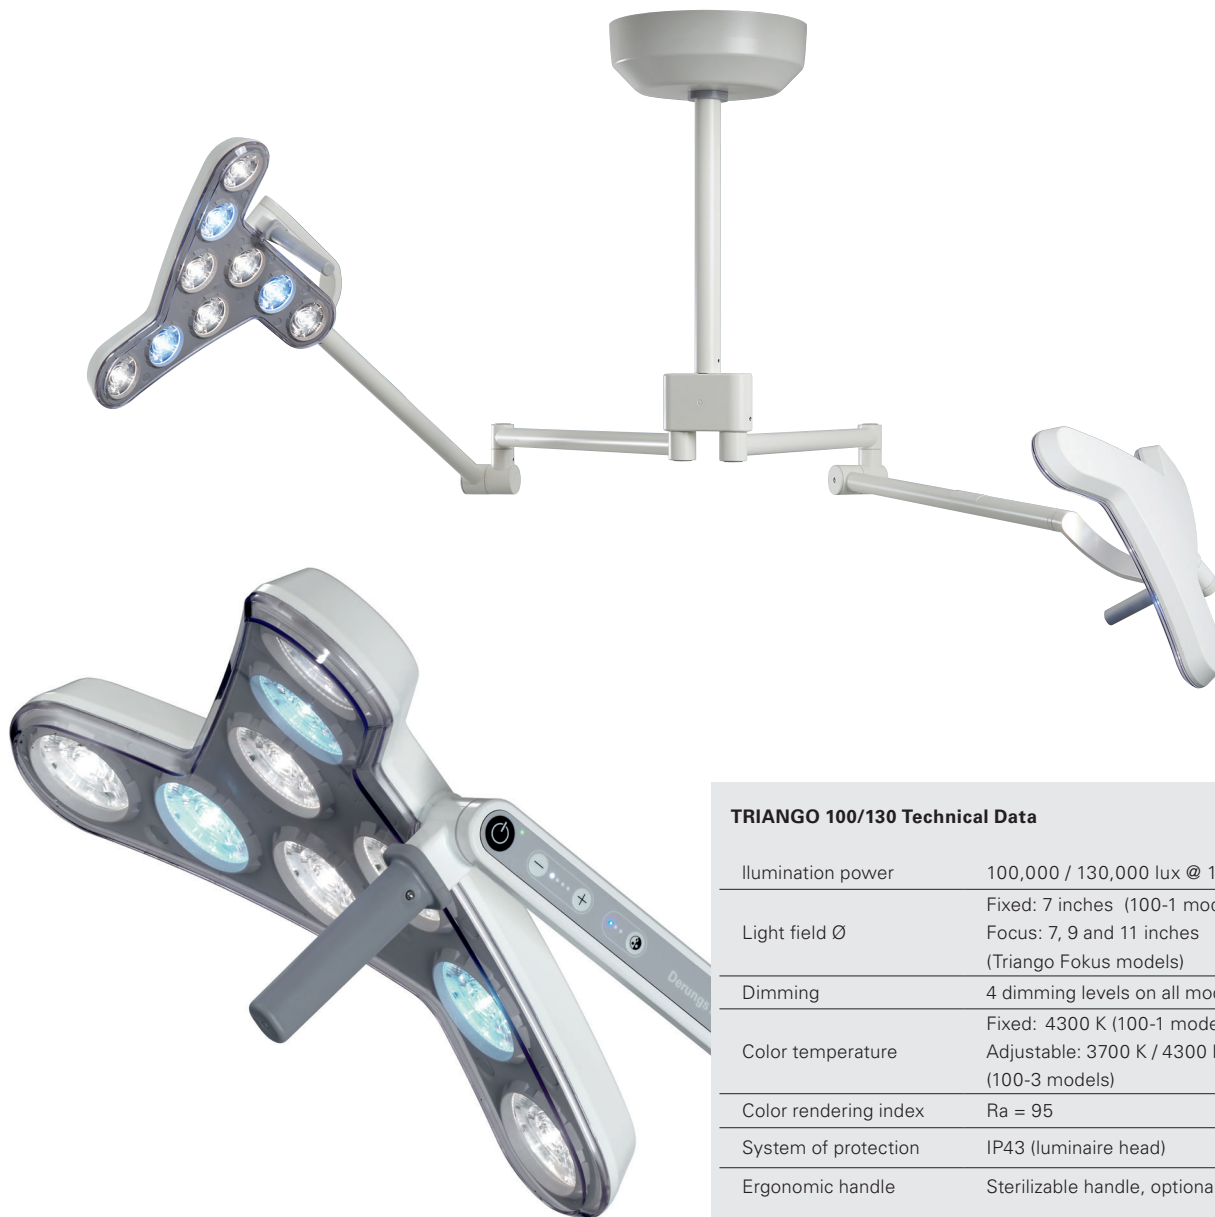

Large range of motion and long reach

Intuitive operation

Simple operation with an easy-to-reach keypad

TRIANGO 100/130 Technical Data

Illumination power	100,000 / 130,000 lux @ 1 m (39.4 in)
Light field Ø	Fixed: 7 inches (100-1 models)* Focus: 7, 9 and 11 inches (Triango Fokus models)
Dimming	4 dimming levels on all models
Color temperature	Fixed: 4300 K (100-1 models)* Adjustable: 3700 K / 4300 K / 4700 K (100-3 models)
Color rendering index	Ra = 95
System of protection	IP43 (luminaire head)
Ergonomic handle	Sterilizable handle, optional disposable cover

*Feature available TRIANGO 100 only

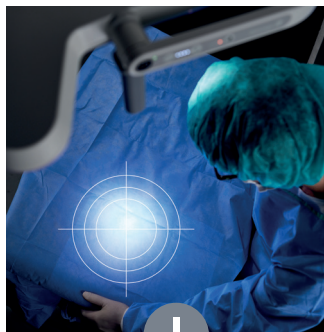

Ideal color temperature

Adjustable to three levels
(3700 K / 4300 K / 4700 K)

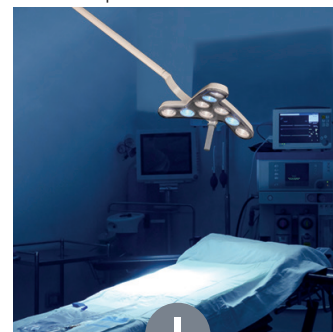

Illumination field

Focusable light field of
7, 9 and 11 inches available

Endo mode (optional)

Optimal light conditions
for endoscopic and minimally
invasive procedures
