**VANERA LED**  
LIGHT IN UNDERSTATED ELEGANCE

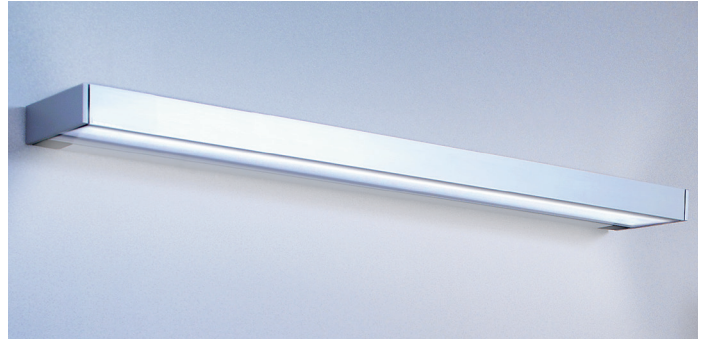

The new VANERA LED brings the latest LED technology to architectural lighting. The sleek silhouette integrates stylishly and harmoniously into any environment. The direct and indirect lighting components give rooms a friendly and bright ambiance. The special wide-angle and anti-glare technology assures optimal light balance for rooms, corridors and public areas. The minimal design also makes VANERA LED ideal for areas with low ceilings or narrow spaces that may be difficult to light. With 50,000 hours of maintenance-free LED life, VANERA LED is a perfect solution for senior care environments or any other public domain.

# DIRECT/INDIRECT HEALTHCARE & SENIOR CARE LIGHTING

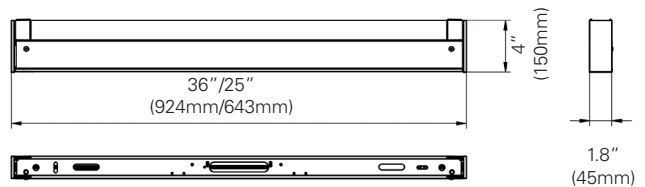

## Advantages at a glance:

- Very slim dimensions for a clean, unobtrusive look
- Energy and cost savings with LED technology (approx. 25% savings as compared to T5HO fluorescent fixtures)
- Made from strong anodized aluminum material
