

SNE

UNIVERSAL INDUSTRIAL TASK

PRODUCT DESCRIPTION:

The SNE-136 provides wide ambient light to small and mid-size work areas requiring bright illumination for precise visual tasks. It is ideal for mounting on to the workstation, bench or inspection area. SNE features a long, 19in luminaire head designed for a 36W CFL lamp. The built-in parabolic micro-grid louver directs light downward onto the work area and eliminates glare for the operator. A 35in adjustable, spring-loaded arm provides easy positioning and precise orientation. The SNE

workstation luminaire has a built-in electronic ballast for greater energy efficiency and long life. The multi-functional SNE-136 task light features a 36-watt compact fluorescent lamp that provides even illumination with maximum light output and excellent color rendering. The lamp is available in a variety of color temperatures to meet a myriad of inspection requirements including applications that require high color temperatures or color correction applications. An optional clip-on magnifier lens is also available, along with Add-X lenses for greater magnification and pinpoint accuracy.

FEATURES:

- Universal mounting for most benches
- Plug-in 120V standard power connection
- CFL lamp provides long lamp life (10,000 hrs) and 95CRI
- Energy-efficient electronic ballast
- Parabolic micro-grid louver
- Designed for easy mounting
- Clip-on magnifier available
- Add-X lenses available
- Ergonomic industrial-grade arm comes complete with flexible spring-loaded base

PRODUCT INFORMATION

SNE-136

CLIP-ON MAGNIFIER

Voltage:	120V, 50/60Hz
Lamping:	1 x 36W CFL
Operation:	Switch on luminaire head
Luminaire Body:	Fiberglass-reinforced polyamide, powder-coated steel arm
Lamp Shielding:	Micro-grid louver
Arm System:	32in articulating arm

For mounting options see page 41

DESCRIPTION	PART #
SNE-136, 5400K	138 462 003
Clip-on magnifier, 3 diopter (1.75X)	190 182 019
Add-X Lens, 4d (snaps into clip-on magnifier listed above)	190 080 019
