Medical Task Lighting • Halux and Medicool

Introducing the "cool-to-the-touch" Halux and Medicool task lighting from Derung® Medical Lighting. Choose our safe and efficient Halux Series for precisely illuminating medical examinations and procedures. Or, choose the Medicool bedside light for patient rooms where a soothing and ergonomic light is needed. The light also attaches to headwall systems and complements wall lighting by providing an adjustable reading light option.

Halux 35 Series Features:

• The **Halux R 35/2 GX** and **FX** features two 35-watt halogen lamps, which provide switchable dual spot/flood lamp capabilities of 10 and 38 degrees for diverse application requirements.

• The economical **Halux 35** features one 35-watt, 10 degree halogen lamp with a dichroic reflector that safely minimizes heat output, and enhances performance and comfort.

• A 37-inch spring-balanced articulated arm with internal springs provides secure positioning.

Halux 50 Series Features:

• The **Halux 50 SX** and **GX** feature a 50-watt, 10 degree halogen lamp which provides either 66% or 100% intensity, double wall construction, and heat reflectors which greatly reduce heat emission.

• The economical **Halux 50 SX** features a 50-watt, 10 degree halogen lamp.

• All Halux models include a 10-year warranty on all mechanical parts and a two-year ballast and transformer warranty.

Medicool Features:

• The optimum reading and bedside light features a 40-watt incandescent lamp.

• An anti-glare diffuser provides soothing light, which is gentle to the eye.

• Includes a 10-year warranty on all mechanical parts and a two-year ballast and transformer warranty.
