**Valencia: the ultimate in ergonomic task lighting.**

**Waldmann** Lighting

## The ultimate in functional design.

lighting, specializing in task lighting for virtually every type of workplace in business and industry around the world. The Valencia complements overhead lighting, and is ergonomically designed to enhance employee productivity by providing users direct light control

◀ The Valencia shown with panel mount used under overhead storage cabinet.

### The form is emotional; the function is rational.

Valencia's glare-free parabolic louver, a Waldmann exclusive, focuses warm or cool light precisely where it's wanted, virtually eliminating eyestrain from VDT screens, and all other work environments. For over sixty years, Waldmann Lighting has been internationally recognized as a leading manufacturer of quality

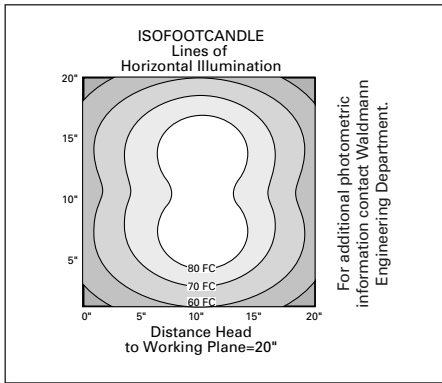

at their fingertips. It uses two 9-watt compact fluorescent lamps which produce the same light as a 75-watt incandescent lamp, but utilize 77% less energy and heat. The lamps provide 10,000 hours of lamp life, standard 4100K color temperature, and an 82 CRI. Other color temperatures available include 2700K, 3500K, and 5000K.

When you're searching for task lighting, make a brighter choice: **the Valencia by Waldmann.**

▲ "Indirect" Uplighter providing ambient illumination is shown with a "Direct" adjustable task light.

**M**aximize your lighting experience by adding Waldmann Indirect Lighting (Twin-C) to complement your adjustable arm task lighting. Call us for more information, or visit our Web site today to view our complete line: [www.waldmannlighting.com](http://www.waldmannlighting.com)

**Waldmann understands the importance of ergonomic task lighting.**

Waldmann lighting engineers have carefully studied the National Institute for Occupational Safety and Health's report which concludes that 91% of all VDT users complain of eyestrain. Environmental screen glare, shadows on written materials, and excessive contrast between screen and surroundings are common complaints which contribute to headaches and loss of productivity.

**Bright, agreeable light for hours of work comfort.**

Waldmann Task Lights are carefully engineered to meet the requirements of an ergonomically-sound workplace. Criteria used in developing the Valencia and other Waldmann lights are:

- Ample illumination for work being performed at all areas of the workstation.
- Even illumination over an adequate range.
- Little or no glare, direct or indirect.
- Little or no spill light onto the VDT screen.
- Fluorescent light source to minimize heat.
- Non-reflective surface finish on lights.
- Capability to maneuver the light in multiple directions, both vertically and horizontally.

**Ample illumination for any task.**

The Valencia provides the user with greater control over lighting in his or her environment by enabling the light direction to be precisely and easily adjusted to the task. A unique parabolic louver (5/8" directional grid), built into an impact-resistant ABS head that swivels 120° and tilts 180°, allows the light to be adjusted in virtually any position without causing glare.

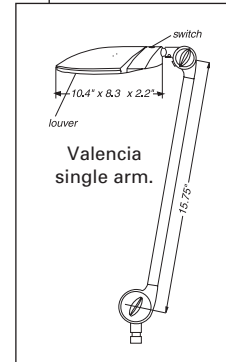

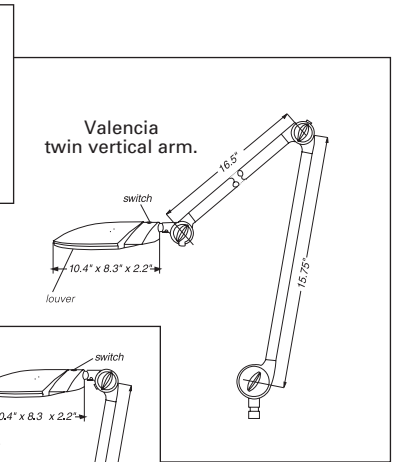

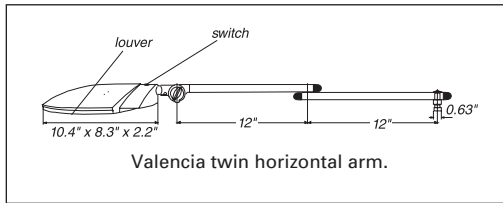

**Energy saving electronic ballast model available.**

The Valencia is available with an optional electronic ballast. The electronic ballast, which is built into the head, ignites lamps quickly and eliminates flickering. This special ballast also helps reduce energy consumption which is an important issue for many progressive companies today. The Valencia "E" version provides less harmonic distortion, a greater power factor of 0.99, and an operation frequency of 45KHz.

**Precise positioning.**

Valencia's fully articulated, spring balanced arm with concealed springs comes in three arm styles: single, twin vertical and twin horizontal for infinite light adjustment. The single arm works well in small work spaces, while the larger twin arms are best in an environment that requires a broad reach of light such as an executive office. The Valencia mounts on a table clamp, wall bracket, table base, or open-office furniture brackets that fit over 50 different office furniture systems.

**Waldmann's Valencia... the brilliant solution in ergonomic task lighting.**

**Valencia Features:**

- Specular silver finish, built-in parabolic louver (5/8" grid) for glare and reflection reduction.
- Impact resistant ABS head with 120° swivel and 180° tilt for maximum light control and positioning.
- A built-in aluminum reflector improves the quality of light and efficiency.
- Fully articulated single or twin balanced arms with concealed springs for exact positioning.
- 9-ft polarized cord set with a quick release in-line ballast, or electronic ballast offered.
- Two energy efficient 9-watt compact fluorescent lamps rated at 1200 lumens, 82 CRI, 4100K color temperature, and 10,000 hours of lamp life.
- Choose one of two table clamps, wall bracket or panel bracket for over 50 different furniture systems with each light. Optional weighted table bases are available.
- Choose Matte Black or Light Grey arms with a Black, Burgundy, Dark Grey, Light Grey, Royal Blue or Teal shade. Custom colors are available.

**Valencia Ordering Information:**

Single Arm-Black	138-040-01*
Twin Vertical Arm-Black	138-050-01*
Twin Horizontal Arm-Black	138-020-01*
Single Arm-Grey	138-040-00*
Twin Vertical Arm-Grey	138-050-00*
Twin Horizontal Arm-Grey	138-020-00*

**Electronic Ballast "E" Versions:**

Single Arm-Black	138-080-01*
Twin Vertical Arm-Black	138-070-01*
Twin Horizontal Arm-Black	138-090-01*
Single Arm-Grey	138-080-00*
Twin Vertical Arm-Grey	138-070-00*
Twin Horizontal Arm-Grey	138-090-00*

\* Please specify color of Shade for head when placing order. The following colors are available:  
 • Black- (1) • Light Grey- (6) • Royal Blue- (5)  
 • Burgundy- (4) • Dark Grey- (7) • Teal- (8)

**Mounting Bases. (See photo above.)**

Table Clamp	200-498-039
Table Clamp (for rounded surfaces)	191-017-029
Wall Bracket	308-218-019
Grommet (not shown)	203-332-019
Designer Table Base	190-112-019
Rectangular Table Base	190-037-019
Table Base (for single arm models only)	190-101-019
Panel Bracket	Specify Furniture System

**Replacement Lamps:**

9 Watt, 2700K	450-009-110
9 Watt, 3500K	950-900-003
9 Watt, 4100K (Standard)	450-009-120
9 Watt, 4100K (For "E" Version)	450-009-180
9 Watt, 5000K	950-900-038
